Module 4: Selections & Transformations

- Quick Selection, Magic Wand, Object Selection tool
- Select & Mask workspace (Hair & Object refinement)
- Transformations (Scale, Rotate, Warp, Perspective, Distort)
- Free Transform & Puppet Warp

Practical Task: Background removal & photo manipulation.

Module 5: Color & Adjustment

- Color Modes (RGB, CMYK, LAB, Grayscale)
- Color Balance, Curves, Levels
- Gradient Maps & Selective Color
- Filters (Blur, Sharpen, Noise, Liquify)
- Camera RAW filter

Practical Task: Fashion photo color correction.

Module 6: Typography & Text Effects

- Adding & formatting text
- Working with Fonts & Google Fonts
- Text Effects (3D, Neon, Fire, Metallic)
- Text Masking (Text inside Image)
- Creating typographic posters

Practical Task: Creative text-based poster.

Module 7: Design Projects (Print & Digital)

- Poster design
- Flyer & Brochure design
- Business card & Letterhead design
- Social media post & banner creation
- Mockup presentation (t-shirt, mug, billboard)

Practical Task: Brand identity design practice.

Module 8: Advanced Photo Manipulation

- Double exposure effects
- Dispersion effects
- Surreal photo manipulation
- Composite design (Mixing multiple images)
- Digital painting basics

Practical Task: Fantasy artwork manipulation.

Module 9: Automation & Productivity

- Using Actions & Batch processing
- Custom brushes & presets
- Exporting images for print & web
- File formats (PSD, PNG, JPEG, TIFF, PDF)

Practical Task: Automate a watermark across multiple photos.

Module 10: Final Project & Portfolio

- Full creative project combining **Photo Editing + Retouching + Typography + Design**
- Portfolio creation using mockups
- Preparing files for clients

Outcome: A complete portfolio (Posters, Logos, Social Media Ads, Business Card, Edited Photos).
